

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

NOTICE TO AUTHORS

The Journal of Parasitology, published quarterly, is a medium for the prompt appearance of briefer papers and notes on Animal Parasites whether Protozoa, Vermes, or Arthropoda, concise technical notes of interest to parasitologists, and brief reviews of monographs and books. **THE JOURNAL** will publish the records of the Helminthological Society of Washington. It will include also brief reports of personal and institutional events in the field of parasitology.

The Editorial Board will be glad to examine contributions on the morphology, life history, or biology of zooparasites. **THE JOURNAL** aims to cover the general field of the relation of animals to disease in man and other animals. Every paper accepted is taken with the specific understanding that it is to be published exclusively in this journal unless otherwise arranged in advance.

Manuscripts must be typewritten; figures must be drawn for reproduction as zinc etchings and will be printed in the text unless the author is prepared to meet the additional cost of plates or half-tone illustrations. Only a limited amount of illustration can be provided without the cooperation of the author or institution interested. Manuscripts and drawings when submitted are understood to be in finished form for transmission to the printer, and subsequent alterations will be made at the expense of the author. In case of necessary changes, such as typewriting of manuscript and proper lettering of figures, the work will be done at the expense of the author.

Long Bibliographies will not be printed, and only such papers cited as are essential. The Harvard system of citation will be followed in briefest form. A proof indicating the precise method will be furnished authors on application. Footnotes will be employed only exceptionally.

The Author of any article will on request receive reprints of his paper from the printer at cost provided the order is placed when the galley proof is returned. A blank form accompanies the proof for this purpose.

Manuscripts and Drawings for publication, books for review, subscriptions, and all correspondence relative to **THE JOURNAL** should be sent to the managing editor, Henry B. Ward, The University of Illinois, Urbana, Illinois.
